SISTEMA ANTIBLOQUEO
DE FRENOS NO INCLUIDO

Advierta lo que le dicen las llantas mientras conduce:

- Si su respuesta a la dirección es lenta o si en las curvas y en el frenado la respuesta es pesada, es muy probable que sus llantas estén desinfladas.
- Vibración o tambaleo durante la conducción, puede significar que la presión en las llantas es mayor a la recomendada, o que ha ocurrido un daño en la llanta y la falla es inminente.
- La llanta puede vibrar a ciertas velocidades debido al desbalanceo, en este caso su desgaste será muy acelerado.

**RECUERDE SIEMPRE REVISAR LA PRESIÓN DE AIRE EN SUS LLANTAS
ANTES DE COMENZAR A RODAR**

PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página **web: www.auteco.com.co** accediendo al link **repuestos**. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco.

This diagram shows an exploded view of a carburetor assembly. The main body is a cast metal carburetor. The components are numbered as follows:

- 1**: A large hexagonal head screw used to secure the top cover.
- 2**: The top cover of the carburetor.
- 3**: A thin gasket or seal ring.
- 4**: A vertical adjustment screw for the main jet.
- 5**: A cap for the main jet adjustment screw.
- 6**: A hex nut for the main jet.
- 7**: A small O-ring seal.
- 8**: A long vertical screw for the idle mixture adjustment.
- 9**: A hex nut for the idle mixture screw.
- 10**: A small hex nut for the idle speed adjustment.
- 11**: A small O-ring seal for the idle speed adjustment.

This diagram shows an exploded view of a fuel system assembly. The components are numbered as follows:

- 1: Fuel filter housing
- 2: Fuel filter element
- 3: Fuel line (top left)
- 4: Fuel line (middle left)
- 5: Fuel line (top right)
- 6: Fuel line (middle right)
- 7: Fuel line (bottom left)
- 8: Fuel line (bottom middle)
- 9: Fuel line (bottom right)
- 10: Fuel line (bottom left, dashed line)
- 11: Fuel line (bottom right, dashed line)
- 12: Fuel line (bottom right, dashed line)
- 13: Fuel line (bottom right, dashed line)
- 14: Fuel line (bottom right, dashed line)

pulsar
180GT

This diagram illustrates the exploded view of a 125cc engine cylinder and piston assembly. The components are numbered as follows:

- 1**: Spark plug
- 2**: Gasket
- 3**: Piston pin
- 4**: Piston pin clip
- 6**: Piston
- 7**: Piston rings
- 8**: Piston pin
- 9**: Spark plug
- 11**: Spark plug
- 12**: Piston pin
- 13**: Piston pin
- 14**: Piston pin

pulsar
180GT

An exploded view diagram of a mechanical assembly. The components are numbered 1 through 9. Part 1 is a long cylindrical shaft with a flange at the bottom. Part 2 is a shorter cylindrical shaft. Part 3 is a complex bracket or housing with a small pin-like feature. Part 4 is a small cylindrical pin. Part 5 is a small cylindrical bush or spacer. Part 6 is a large coiled spring. Part 7 is a long cylindrical shaft with a flange at the bottom. Part 8 is a small cylindrical pin. Part 9 is a group of three washers or spacers of different thicknesses. The diagram shows the relative positions and assembly sequence of these parts.

pulsar
180GT

This exploded view diagram illustrates the components of a mechanical assembly, numbered 1 through 15. The parts are as follows:

- 1:** A large cylindrical component with a central shaft, shown partially assembled with parts 2 and 3.
- 2:** A small circular component, likely a bearing or seal, located at the front of part 1.
- 3:** A small circular component, likely a bearing or seal, located at the rear of part 1.
- 4:** A long, thin, curved metal plate or bracket.
- 5:** A large, circular gear or sprocket with multiple teeth.
- 6:** A small circular component, likely a bearing or seal.
- 7:** A small circular component, likely a bearing or seal.
- 8:** A small circular component, likely a bearing or seal.
- 9:** A long, thin, curved metal chain or belt.
- 10:** A small circular component, likely a bearing or seal.
- 11:** A large, curved metal component, likely a pulley or guide.
- 12:** A small circular component, likely a bearing or seal.
- 13:** A small circular component, likely a bearing or seal.
- 14:** A small circular component, likely a bearing or seal.
- 15:** A small circular component, likely a bearing or seal.

pulsar
180GT

This exploded view diagram illustrates the components of a 125cc engine assembly. The parts are numbered as follows:

- 1**: Oil sump gasket
- 2**: Spark plug
- 3**: Piston and connecting rod assembly
- 4**: Piston rings
- 5**: Piston pin
- 6**: Piston pin clip
- 7**: Valve train assembly (including pushrod and rocker arm)
- 8**: Rocker arm pin
- 9**: Rocker arm
- 10**: Piston pin clip
- 11**: Valve train pin
- 12**: Valve train pin

pulsar
180 ET

This diagram illustrates the exploded view of a mechanical assembly, showing 16 numbered components. The assembly is oriented diagonally from the bottom-left to the top-right. The components are as follows:

- 1**: A long shaft with a flange at one end.
- 2**: A small pin or screw at the end of the shaft.
- 3**: A small washer or spacer.
- 4**: A small pin or screw at the other end of the shaft.
- 5**: A small gear or pulley.
- 6**: A large gear or pulley mounted on the shaft.
- 7**: A bracket or housing that supports the assembly.
- 8**: A small gear or pulley.
- 9**: A small gear or pulley.
- 10**: A small gear or pulley.
- 11**: A small washer or spacer.
- 12**: A large gear or pulley.
- 13**: A small gear or pulley.
- 14**: A small pin or screw.
- 15**: A small washer or spacer.
- 16**: A large gear or pulley.

pulsar
180GT

An exploded view diagram of a mechanical assembly, likely a gearbox or a similar power transmission component. The diagram shows 13 numbered parts arranged in a perspective view, with lines indicating their relative positions and assembly sequence. The components are:

- 1: A large cylindrical housing or casing.
- 2: A small pin or screw.
- 3: A small pin or screw.
- 4: A bracket or frame that supports the internal gears.
- 5: A small cylindrical component, possibly a bush or a cap.
- 6: A gear mounted on a shaft.
- 7: A small ring or washer.
- 8: A small pin or screw.
- 9: A small ring or washer.
- 10: A large gear or flywheel.
- 11: A small pin or screw.
- 12: A large gear or flywheel.
- 13: A gear mounted on a shaft.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered 1 through 24. The main assembly consists of a central shaft (1) with a series of gears (2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19) mounted on it. The gears are arranged in a series of meshing pairs. The shaft is supported by bearings (20, 21, 22) and sealed with O-rings (23, 24). The diagram shows the relative positions and assembly sequence of the components.

pulsar
180GT

An exploded view diagram of a mechanical assembly, likely a pump or motor component. The diagram shows the following parts and their assembly sequence:

- Part 1:** A long shaft or tube.
- Part 2:** A bracket or support arm.
- Part 3:** A bracket or support arm.
- Part 4:** A long shaft or tube.
- Part 5:** A large cylindrical component, possibly a motor or pump housing.
- Part 6:** A small pin or screw.
- Part 7:** A small pin or screw.
- Part 8:** A small pin or screw.
- Part 9:** A ring or flange.
- Part 10:** A bracket or support arm.
- Part 11:** A small pin or screw.

The assembly is shown in a disassembled state, with parts 1, 4, 5, 10, and 11 grouped together by a dashed line, indicating they form the main body of the assembly. Part 11 is highlighted with a red line, suggesting it is a critical or specific component.

This diagram shows an exploded view of a mechanical assembly. The components are numbered 1 through 16. The main assembly consists of a long shaft (1) with a knurled end, a bracket (2) with a pin (15), a lever arm (6) with a handle (7), a pivot pin (9), a mounting bracket (8), and a base (12) with a bolt (10) and a nut (11). A separate sub-assembly includes a spring (4), a pin (3), and a bracket (5).

160 ET

This diagram shows an exploded view of a mechanical assembly. The main component is a large, cast metal housing (2) with a central circular opening. A timing belt (3) is shown wrapped around three pulleys: a large drive pulley (4) and two smaller idler pulleys (5 and 6). A tensioner arm (7) is attached to pulley 6 and a mounting bracket (8). A small cylindrical component (9) is shown near the top right of the housing, and a bolt (10) is shown at the bottom right. The components are labeled with numbers 2 through 10.

This diagram shows an exploded view of a mechanical assembly, likely a pump or engine component. The main body is a complex cast part (1) with various ports and mounting points. Two long, thin rods (2) are shown passing through the top of the assembly. A curved pipe (22) is connected to the top right. A large, dark, fan-like component (4) is shown on the left, with a small pin (3) and a washer (23) associated with it. Several O-rings (5, 6, 7, 17, 18, 19) and seals are shown in their respective positions. A small, complex valve or actuator (14) is shown at the bottom left, with a pin (13) and a washer (12) associated with it. A small, cylindrical component (15) is shown at the bottom center, with a pin (16) and a washer (10) associated with it. A small, cylindrical component (11) is shown at the bottom right, with a pin (9) and a washer (8) associated with it. A small, cylindrical component (20) is shown at the top right, with a pin (24) and a washer (21) associated with it. A small, cylindrical component (25) is shown at the bottom left, with a pin (27) and a washer (26) associated with it.

An exploded view diagram of a mechanical assembly. The main component, labeled 1, is a complex housing with a large gear on its side and several mounting points. A small cylindrical pin, labeled 4, is shown near the top of the housing. Two hex bolts, labeled 2, are shown being inserted into the housing. Below the housing, there is a circular flange or cover plate, labeled 3, which has a central hub and radial spokes. A thin, circular ring, labeled 6, is positioned above the flange. A U-shaped bracket or clip, labeled 5, is shown below the flange.

160 ET

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered 1 through 17. The main assembly (11) is shown with a shaft and a gear (17). A cover (13) is shown with a bolt (12) and a screw (14). A gear (3) is shown with a bolt (10) and a spring (15/15A). A bracket (4) is shown with a screw (5). A shaft (6) is shown with a nut (7) and a washer (8). A flange (2) is shown with a bolt (16). A housing (1) is shown with a bolt (10) and a spring (15/15A). A gear (17) is shown with a bolt (10) and a spring (15/15A).

pulsar
180GT

This diagram illustrates the assembly of a mechanical component, likely a bracket or support arm. The main assembly is shown in a perspective view, with various parts labeled with numbers. The parts are as follows:

- 1**: A small cylindrical component, possibly a pin or bush.
- 2**: A small cylindrical component, possibly a pin or bush.
- 3**: A small cylindrical component, possibly a pin or bush.
- 4**: A small cylindrical component, possibly a pin or bush.
- 5**: A small cylindrical component, possibly a pin or bush.
- 6**: A small cylindrical component, possibly a pin or bush.
- 7**: A small cylindrical component, possibly a pin or bush.
- 8**: A small cylindrical component, possibly a pin or bush.
- 9**: A small cylindrical component, possibly a pin or bush.
- 10**: A small cylindrical component, possibly a pin or bush.
- 11**: A small cylindrical component, possibly a pin or bush.
- 12**: A small cylindrical component, possibly a pin or bush.
- 13**: A small cylindrical component, possibly a pin or bush.
- 14**: A small cylindrical component, possibly a pin or bush.
- 15**: A large, dark, curved component, possibly a bracket or support arm.
- 15A**: A small, curved component, possibly a bracket or support arm.
- 16**: A large, dark, curved component, possibly a bracket or support arm.
- 16A**: A small, curved component, possibly a bracket or support arm.

The diagram shows the assembly of these parts into a larger structure. Dashed lines indicate the assembly sequence and the relative positions of the components. The main assembly is shown in a perspective view, with the parts labeled 1 through 16A shown in a separate view to the left.

pulsar
180GT

This diagram shows an exploded view of a vehicle chassis, likely for a truck or heavy-duty vehicle. The main chassis structure is shown in a perspective view. A circular inset at the top left provides a detailed view of a specific component assembly, showing parts 1, 2, 3, 4, and 5. The main chassis has several numbered callouts: 13 points to the front suspension assembly; 7, 5, 6, 5, 9, and 8 point to various components of the rear suspension and frame; and 12, 14, 5, 11, and 10 point to components of the rear axle assembly.

This exploded view diagram illustrates the components of a pressure washer. The main assembly includes a motor unit (1) with a handle (2), a trigger gun (4), and a high-pressure hose (3). The trigger gun is connected to a spray lance (18) via a quick-connect coupling (5). A spray gun (26) is also shown as an alternative attachment. The diagram includes various accessories and spare parts: a foam sprayer (7), a detergent bottle (19), a detergent applicator (22), a spray lance (21), a spray lance (14), a spray lance (15), a spray lance (16), a spray lance (9), a spray lance (10), a spray lance (12), a spray lance (11), a spray lance (23), a spray lance (13), a spray lance (17/17A), and a spray lance (25).

This diagram shows an exploded view of a rear suspension assembly. The components are numbered as follows:

- 1**: Lower control arm (LCA) with a ball joint at the front and a threaded end at the rear.
- 2**: A threaded rod or axle end fitting that fits into the end of the lower control arm.
- 3**: A bush or spacer that fits between the lower control arm and the frame.
- 4**: A pin or clip that secures the lower control arm to the frame.
- 5**: A spring or shock absorber component that fits into the lower control arm.
- 6**: A pin or clip that secures the spring/shock absorber to the lower control arm.
- 7**: A bracket or mounting plate that fits onto the spring/shock absorber.
- 8**: A pin or clip that secures the bracket to the frame.
- 9**: A nut or washer that fits onto the pin/clip.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor housing. The parts are numbered 1 through 31. The assembly is organized into several vertical columns. The leftmost column contains parts 1, 4/5, 6, 7, 3, 15, 27, 2, 26, and 28. The second column from the left contains parts 8, 31, 30, 29, 9, and 10. The third column contains part 11. The rightmost column contains parts 12, 13, 14, 16, 17, 18, 19, 20, 21, 22, 23, 24, and 25. Dashed lines indicate the assembly sequence and alignment of the components.

This exploded view diagram illustrates the components of a rear fender assembly. The main fender body is shown on the left. To its right, the brake light assembly (1) is shown, which includes a lens (1) and a mounting bracket (2). A separate mounting bracket (3) is also shown. A cylindrical component (6) is shown to the right of the main assembly. The fender body features a mounting bracket (4) and a bracket (5). A rectangular plate (7) is shown below the fender body, with a bracket (8) and a plate (9) attached to it. A bracket (10) is shown to the right of the plate (9).

FICHA TÉCNICA PULSAR 180 GT - GT BS-IV

CARACTERÍSTICAS	UNIDAD
Motor	4T, Monocilíndrico
Diámetro x Carrera	63.50 mm x 56.40 mm
Índice de Compresión	9.5 +/- 0.5 : 1
Potencia Máxima	17 HP @ 8.500 rpm
Torque Máximo	14.22 Nm @ 6.500 rpm
Sistema de Ignición	CDI Digital con Microprocesador
Bujías	NGK CR8E o CHAMPION RG4HC (2 Unidades)
Tolerancia de Bujías	0.6 a 0.8 mm
Lubricación	Bomba Húmeda de Aceite, Forzada.
Arranque	Eléctrico
Transmisión	Mecánica 5 velocidades
FRENOS	
Freno Delantero	Freno de Disco Hidráulico
Freno Trasero	Bandas Expandibles
CAPACIDAD DEL TANQUE	
Lleno	15 Litros
Reserva	3.2 Litros
Reserva Utilizable	2 Litros
LLANTAS	
Llanta Delantera	90/90 x 17 49P TUBELESS
Presión Aire Llanta Delantera	28 PSI
Llanta Trasera	120/80 x 17 61P TUBELESS
Presión Aire Llanta Trasera (Solo)	28 PSI
Presión Aire Llanta Trasera (Con Parrillero)	30 PSI
SISTEMA ELECTRICO	
Bombillo Farola	35/35 W
Luz de Stop	LED
Luces Direccionales	10 W
Indicadores del Tablero	LED
Velocímetro	Análogo Digital
Pito	12 V
Batería	12V 9 AH
DIMENSIONES	
Largo x Ancho x Alto	2035 mm x 750 mm x 1165 mm (GT) 2035 mm x 765 mm x 1115 mm (GT BS IV)
Distancia Entre Ejes	1350 mm. (GT) 1345 mm. (GT BS IV)
Altura al Piso	165 mm.
Peso en Seco	147 Kg. (GT) 145 Kg. (GT BS IV)

Identifica los repuestos BAJAJ comercializados con el respaldo de AUTECO

1. TOCAR ✓ Y SENTIR

Al tocar el holograma dorado no debe sentir diferencia de altura con la etiqueta de papel.

2. EFECTO ✓ DE CAMBIO

Si giras la etiqueta dorada 90° a la derecha deben verse las palabras GENUINE PARTS y BAJAJ.

3. TEXTO ✓ OCULTO

Cuando la etiqueta dorada es raspada, aparecerá la palabra "genuine"

4. IDENTIFICA ✓ EL COLOR DE LA ETIQUETA

Las etiquetas de los repuestos importados con el respaldo de AUTECO son color ROSADO.

¡RUEDA
TRANQUILO Y SEGURO!

**COMPRA REPUESTOS
ORIGINALES BAJAJ-AUTECO**
¡A un súper precio!

NUEVO*

**MOBIL SUPER™
4T ULTRA AUTECO®**

**Identifícalo
por la tapa Roja**

- Menor consumo de aceite
- Mayor vida útil del motor

* Nueva presentación etiqueta y nuevo empaque.
