SISTEMA DE  
ENCENDIDO  
AUTOMÁTICO  
DE LUCES

SISTEMA  
ANTIBLOQUEO  
DE FRENS

# ANEXO INFORMACIÓN DE SEGURIDAD

Verifique la carátula de este manual para conocer cuál de los siguientes dispositivos de seguridad posee su vehículo.

## SISTEMA ANTIBLOQUEO DE FRENOS

Sistema diseñado para evitar que las ruedas se bloqueen al frenar de forma brusca mientras se circula en línea recta, el sistema regula automáticamente la fuerza de frenado.

Aunque el sistema ABS proporciona estabilidad al detenerse, recuerde las siguientes características:

- \* Para frenar de forma eficaz, deje de acelerar y utilice la leva de freno delantero y el pedal de freno trasero simultáneamente, de la misma manera que en el sistema de frenos de una motocicleta convencional
- \* El ABS no puede compensar las condiciones adversas de la carretera, un error de juicio o un uso incorrecto de los frenos.

## SISTEMA DE ENCENDIDO AUTOMÁTICO DE LUCES (AHO)

Sistema diseñado para que una vez se ponga el motor en marcha, la luz principal de la farola se encienda automáticamente.

Este sistema garantiza una mayor visibilidad del vehículo para los demás actores viales.

## SISTEMA DE LUCES DE CIRCULACIÓN DIURNA (DRL)

Sistema de iluminación LED, el cual se enciende automáticamente al girar el interruptor de encendido a "ON".

Mientras la farola principal esté apagada, la luz LED alumbrará intensamente, si se enciende la farola principal, la luz LED se atenuará automáticamente.

No se recomienda dejar el interruptor de encendido en "ON" mientras el motor no esté en funcionamiento porque la batería se drenará prematuramente.

---

## PREFACIO

---

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página web: [www.auteco.com.co](http://www.auteco.com.co) accediendo al link repuestos. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco.

### PROPIEDADES BENEFICIOS &

- **Buena protección contra el desgaste**  
Ayuda a prolongar la vida útil del motor.
- **Estabilidad térmica y contra la oxidación**  
Ayuda a mantener los motores limpios para proporcionar una operación más suave, posibilitando la extensión de frecuencia de cambios de aceite.
- **Buena protección contra la corrosión**  
Protege los componentes críticos del motor contra los ácidos de la combustión y la humedad.

**Recomendado para las motocicletas  
con viscosidad 20W-50**

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or engine component. The parts are numbered as follows:

- 1:** Multiple small pins or fasteners used throughout the assembly.
- 2, 3, 4:** Components of the top housing or cover.
- 5, 6, 7, 8, 9, 10, 11, 12, 13:** Various bolts, nuts, and small components.
- 14, 15, 16, 17, 18:** Long, thin rods or shafts.
- 19, 20, 21:** Components of the central shaft or crank assembly.
- 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39:** A series of components including seals, gaskets, and housing parts.

The diagram shows the relative positions and assembly sequence of these parts, with dashed lines indicating the alignment and fit of the components.

2

This exploded view diagram illustrates the assembly of a mechanical component, likely a door latch or lock mechanism. The parts are numbered as follows:

- 1**: A small pin or screw used for assembly.
- 2**: A small pin or screw used for assembly.
- 3**: A long, thin pin or screw used for assembly.
- 4**: A small pin or screw used for assembly.
- 5**: A small pin or screw used for assembly.
- 6**: A small pin or screw used for assembly.
- 7**: A small pin or screw used for assembly.
- 8**: A long, thin pin or screw used for assembly.
- 9**: A long, thin pin or screw used for assembly.
- 10**: A large, circular component, possibly a door plate or a large washer.
- 11**: A large, circular component with a gear-like edge, possibly a door plate or a large washer.
- 12**: A small pin or screw used for assembly.
- 13**: A small pin or screw used for assembly.
- 14**: A small pin or screw used for assembly.
- 15**: A small pin or screw used for assembly.
- 16**: A small pin or screw used for assembly.
- 17**: A small pin or screw used for assembly.

3

This technical drawing is an exploded view of a mechanical assembly, likely a door hinge or latch mechanism. The components are numbered 1 through 9:

- 1:** Two screws used for mounting.
- 2:** A small circular washer or spacer.
- 3:** A small circular washer or spacer.
- 4:** A cylindrical component, possibly a pin or a small bush.
- 5:** A small circular plate or washer.
- 6:** A long, curved metal bracket or arm.
- 7:** A small cylindrical pin or bush.
- 8:** A small cylindrical pin or bush.
- 9:** A large, curved metal bracket or arm, similar to part 6 but with a different shape.

The diagram shows the relative positions of these parts as they would be assembled. Dashed lines indicate the alignment of the screws (1) and the pin (7) into their respective holes.

4

This technical diagram illustrates the exploded view of a carburetor assembly. The main component is the carburetor body (6), which features a central air passage and a fuel inlet on the left. The assembly includes the following parts:

- 1**: Two small cylindrical components, likely O-rings or seals, positioned at the top and right of the carburetor body.
- 2**: A small rectangular component, possibly a filter or a spacer, located above the top O-ring.
- 3**: A curved elbow pipe with a flared end, connected to the right side of the carburetor body.
- 4**: A small bolt or screw used to secure the elbow pipe.
- 5**: A small washer or spacer plate positioned between the elbow pipe and the carburetor body.
- 6**: The main carburetor body, showing the air passage and fuel inlet.
- 7**: A large, flat, irregular gasket or seal plate located below the carburetor body, designed to fit its base.

5

This diagram shows an exploded view of a mechanical assembly. The main component is a housing (1) with a central opening. A gasket (7) is shown to the right, designed to fit around the housing's perimeter. A bracket (5) is attached to the side of the housing. A large, curved component (6) is positioned below the housing. A circular plate (4) and a ring (10) are shown near the center of the housing. Various bolts (9) and screws (2, 3, 8) are shown in their respective positions, securing the assembly. The numbers 1 through 10 identify the following parts:

- 1: Housing
- 2: Screw
- 3: Nut
- 4: Circular plate
- 5: Bracket
- 6: Curved component
- 7: Gasket
- 8: Bolt
- 9: Bolt
- 10: Ring

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered 1 through 20. The main assembly is shown within a dashed rectangular box. Part 1 is a large gear or impeller. Part 2 is a small pin or clip. Part 3 is a small bush or spacer. Part 4 is a smaller gear or impeller. Part 5 is a central shaft or rotor. Part 6 is a series of stacked rings or vanes. Part 7 is a small bush or spacer. Part 8 is a circular plate or cover. Part 9 is a small pin or clip. Part 10 is a small screw or bolt. Part 11 is a small washer or spacer. Part 12 is a small nut or lock washer. Part 13 is a small pin or clip. Part 14 is a small bush or spacer. Part 15 is a long shaft or rod. Part 16 is a small pin or clip. Part 17 is a small screw or bolt. Part 18 is a small nut or lock washer. Part 19 is a small washer or spacer. Part 20 is a small pin or clip.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or actuator. The parts are numbered 1 through 27. The assembly sequence generally starts with the base components (1-10) and progresses through intermediate gears and linkages (11-20) to the final output components (21-27). Key parts include a large gear (21), a smaller gear (20), a pump housing (11), a spring (4), and various linkages and pins (15, 16, 24, 25, 26). A small rectangular block is shown at the bottom left, possibly a mounting base or a reference part.

13

An exploded view diagram of a mechanical gear assembly. The components are numbered 1 through 8. Component 1 is a long shaft with a splined end and a gear at the other end. Component 2 is a gear that fits onto the shaft. Component 3 is a small ring or washer. Component 4 is a larger ring or washer. Component 5 is a gear that fits onto the shaft. Component 6 is a gear that fits onto the shaft. Component 7 is a gear that fits onto the shaft. Component 8 is a small ring or washer. A grey arrow points to the right, indicating the direction of assembly.

14

This diagram illustrates the exploded view of a gear assembly, with components numbered 1 through 14. The assembly is shown in a perspective view, with the components arranged in a line. The components are as follows:

- 1: A small gear (pinion) at the bottom right.
- 2: A larger gear (idler) meshing with gear 1.
- 3: A small gear (pinion) meshing with gear 2.
- 4: A long shaft with a splined end, passing through the assembly.
- 5: A small gear (pinion) mounted on the shaft.
- 6: A larger gear (idler) meshing with gear 5.
- 7: A small gear (pinion) meshing with gear 6.
- 8: A larger gear (idler) meshing with gear 7.
- 9: A small gear (pinion) meshing with gear 8.
- 10: A larger gear (idler) meshing with gear 9.
- 11: A small gear (pinion) meshing with gear 10.
- 12: A larger gear (idler) meshing with gear 11.
- 13: A small gear (pinion) meshing with gear 12.
- 14: A large gear (idler) at the top left, meshing with gear 13.

A small rectangular block is shown below the main assembly, likely representing a support or housing component.

15

This diagram shows an exploded view of a mechanical assembly. The parts are numbered 1 through 12. A bracket labeled '2' groups parts 1 through 8. The assembly sequence is as follows: 1. Two screws (1) and a pin (3) are used to secure the large gear (5). 2. A washer (4) is placed between the gear (5) and the bracket (2). 3. The bracket (2) is mounted onto the frame (11) using a pin (9) and a nut (10). 4. The bracket (2) contains a pulley (6) and a smaller gear (7). 5. The pulley (6) is connected to a belt (8). 6. The belt (8) is connected to a smaller pulley (9). 7. The smaller pulley (9) is connected to a larger pulley (10). 8. The larger pulley (10) is connected to a motor (12).

16

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered as follows:

- 1:** Two screws for the base plate.
- 2:** The base plate.
- 3:** A pin or spacer.
- 4:** A small gear or pulley.
- 5:** A larger gear or pulley.
- 6:** A gear with multiple teeth.
- 7:** Two screws for the housing.
- 8:** The main housing or cover.
- 9:** A large circular flange or mounting plate.
- 10:** Four screws for the flange.
- 11:** Two screws for the top cover.
- 12:** The top cover or cap.

The diagram shows the spatial relationship between these components, indicating how they fit together. A small 3D perspective view of the assembled unit is shown in the bottom left corner.

17

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or valve. The parts are numbered 1 through 11. The assembly sequence is as follows:

- Part 1:** A long, thin cylindrical shaft or pin.
- Part 2:** A small circular washer or spacer.
- Part 3:** A small circular washer or spacer.
- Part 4:** A small circular washer or spacer.
- Part 5:** A circular component with internal vanes or blades, possibly a rotor or impeller.
- Part 6:** A large, irregularly shaped housing or cover plate with mounting holes.
- Part 7:** A rectangular block or bracket that fits into the housing.
- Part 8:** A long, thin cylindrical shaft or pin.
- Part 9:** A small circular washer or spacer.
- Part 10:** A small circular washer or spacer.
- Part 11:** A small circular washer or spacer.

The diagram shows the relative positions and assembly order of these components. A small 3D arrow icon is located in the bottom left corner of the diagram area.

This technical diagram illustrates the assembly of a vehicle's engine and cooling system. The components are numbered as follows:

- Engine and Cooling Core:** 1 (Cooling fan and core), 2 (Mounting brackets), 3 (Water pump), 4 (Upper radiator hose), 5 (Lower radiator hose), 6 (Thermostat housing), 7 (Water pump pulley), 8 (Pulley bolt), 9 (Fan shroud), 10 (Fan belt), 11 (Fan shroud bracket), 12 (Fan shroud), 13 (Fan shroud clip), 14 (Fan shroud clip), 15 (Fan shroud clip), 16 (Fan shroud clip), 17 (Fan shroud clip), 18 (Fan shroud clip), 19 (Fan shroud clip), 20 (Fan shroud clip), 21 (Fan shroud clip), 22 (Fan shroud clip), 23 (Fan shroud clip), 24 (Fan shroud clip), 25 (Fan shroud clip), 26 (Fan shroud clip), 27 (Fan shroud clip), 28 (Fan shroud clip), 29 (Fan shroud clip), 30 (Fan shroud clip), 31 (Fan shroud clip), 32 (Fan shroud clip), 33 (Fan shroud clip).
- Engine Components:** 10 (Fan belt), 25 (Fan belt pulley), 26 (Fan belt pulley bolt).
- Other Components:** 19 (Fan shroud clip), 30 (Fan shroud clip).

20

This exploded view diagram illustrates the assembly of a motorcycle fairing. The components are numbered as follows:

- 1**: Upper front fairing (nose cone).
- 2**: Screws for the upper front fairing.
- 3**: Side fairing (upper section).
- 4**: Side fairing (lower section, including the headlight housing).
- 5**: Screws for the side fairings.
- 6**: Washers or spacers for the side fairings.
- 7**: Side fairing (lower section, front part).
- 8**: Headlight.
- 9**: Screws for the side fairings.
- 10**: Side fairing (lower section, rear part).
- 11**: Side fairing (lower section, front part).
- 12**: Main front fairing (lower section).
- 13**: Side fairing (lower section, front part).
- 14**: Side fairing (lower section, front part).
- 15**: Side fairing (lower section, front part).
- 16**: Screws for the side fairings.
- 17**: Screws for the upper front fairing.

This exploded view diagram illustrates the assembly of a motorcycle wheel. The components are numbered as follows:

- 1:** Axle
- 2:** Axle nut
- 3:** Axle spacer
- 4:** Axle nut
- 5:** Axle nut
- 6:** Axle nut
- 7:** Axle nut
- 8:** Tire
- 9:** Wheel rim
- 10:** Hub nut
- 11:** Hub nut
- 12:** Brake disc
- 13:** Brake disc mounting bolts
- 14:** Hub nut
- 15:** Hub nut

26

This diagram illustrates the exploded view of a kitchen hood assembly. The components are numbered as follows:

- 1**: The main body of the kitchen hood, featuring a top canopy and a front baffle.
- 2**: A circular duct connector or flange.
- 3**: A small screw or fastener used for mounting.
- 4**: A mounting bracket or plate.
- 5**: A flexible duct pipe with an elbow joint.
- 6**: A small rectangular component, likely a filter or a sensor, shown at two positions: one near the duct connection and another near the front baffle.
- 7**: A rectangular mesh filter for the front baffle.

This exploded view diagram illustrates the assembly of a vacuum cleaner motor unit. The central component is the motor housing (1), which features a top flange (2) and a bottom flange (3). The top flange is secured by a screw (4) and a washer (5). The bottom flange is secured by a screw (6) and a washer (7). The motor housing is connected to a base plate (8) via a screw (9) and a washer (10). The base plate is secured by a screw (11) and a washer (12). The motor housing is also connected to a base plate (13) via a screw (14) and a washer (15). The base plate is secured by a screw (16) and a washer (17). The motor housing is also connected to a base plate (18) via a screw (19) and a washer (20). The base plate is secured by a screw (21) and a washer (22). The motor housing is also connected to a base plate (23) via a screw (24) and a washer (25). The base plate is secured by a screw (26) and a washer (27). The motor housing is also connected to a base plate (28) via a screw (29) and a washer (30). The base plate is secured by a screw (31) and a washer (32). The motor housing is also connected to a base plate (33) via a screw (34) and a washer (35).

**FIGURA N° 28: CUBIERTAS TANQUE GASOLINA**

[illegible][illegible]

This diagram illustrates the assembly of a vehicle's rear suspension system. The main components are labeled as follows:

- 1**: Main suspension body or frame.
- 2**: Shock absorber.
- 3**: Control arm.
- 4**: Small pin or bolt.
- 5**: Larger pin or bolt.
- 6**: Upper control arm or bracket.
- 7**: Bolt or nut.
- 8**: Bolt or nut.
- 9**: Washer or spacer.
- 10**: Washer or spacer.
- 11**: Bolt or nut.
- 12**: Lower control arm or bracket.

The diagram shows the relative positions and assembly points for these components, with dashed lines indicating the path of assembly.

This exploded view diagram illustrates the assembly of a bicycle rear wheel. The components are numbered as follows:

- 1**: Rear axle
- 2**: Axle nut
- 3**: Axle lock
- 4**: Axle lock nut
- 5**: Axle lock washer
- 6**: Axle lock pin
- 7**: Rear cassette
- 8**: Rear cassette body
- 9**: Rear cassette hub
- 10**: Rear cassette lockring
- 11**: Rear cassette lockring nut
- 12**: Rear axle nut
- 13**: Axle lock
- 14**: Axle lock nut
- 15**: Axle lock washer
- 16**: Axle lock pin
- 17**: Rear wheel rim
- 18**: Rear wheel tire
- 19**: Rear wheel hub
- 20**: Rear wheel lockring
- 21**: Rear wheel lockring nut
- 22**: Rear wheel lockring washer
- 23**: Rear wheel lockring pin
- 24**: Rear wheel lockring nut
- 25**: Rear wheel lockring washer
- 26**: Rear wheel lockring pin
- 27**: Rear wheel lockring nut
- 28**: Rear wheel lockring washer
- 29**: Rear wheel lockring pin
- 30**: Rear wheel lockring nut

41

This exploded view diagram illustrates the assembly of a motorcycle helmet. The components are numbered as follows:

- 1**: Chin bar
- 2**: Chin bar bracket
- 3**: Chin bar pin
- 4**: Chin bar bush
- 5**: Chin bar nut
- 6**: Chin bar bracket
- 7**: Chin bar bracket
- 8**: Chin bar pin
- 9**: Chin bar bush
- 10**: Side shell
- 11**: Side shell bracket
- 12**: Side shell pin
- 13**: Side shell bracket
- 14**: Side shell pin
- 15**: Side shell bracket
- 16**: Side shell bracket
- 17**: Side shell bracket
- 18**: Side shell pin
- 19**: Side shell pin
- 20**: Side shell pin

The diagram shows the relationship between these parts, including the chin bar, side shells, and various mounting hardware. Callouts 3-5, 8-12, 14-19, and 20 provide additional detail for specific assembly points.
