MANUAL DE PARTES

SISTEMA DE ENCENDIDO AUTOMÁTICO DE LUCES

Para mayor información consulte el manual de usuario o póngase en contacto con el distribuidor autorizado.

SISTEMA ANTIBLOQUEO DE FRENO

Para mayor información consulte el manual de usuario o póngase en contacto con el distribuidor autorizado.

LUCES DE CIRCULACIÓN DIURNA

Para mayor información consulte el manual de usuario o póngase en contacto con el distribuidor autorizado.

PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página web: www.autecomobility.com accediendo al link repuestos. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco Mobility.

[illegible]

This diagram illustrates the exploded view of a 7800cc engine block and cylinder head assembly. The components are labeled as follows:

- 1**: Small cylindrical pin or plug.
- 2**: Small cylindrical pin or plug.
- 3**: The main engine block, featuring a large central bore and a side-mounted cylinder.
- 4**: Long cylindrical pin or plug.
- 5**: Small cylindrical pin or plug.
- 6**: The cylinder head gasket, showing the sealing surface with various bolt holes.

A grey arrow points towards the assembly, indicating the direction of assembly.

5

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered as follows:

- 1**: A small, angled bracket or support piece.
- 2**: A small cylindrical pin or bush.
- 3**: A small cylindrical pin or bush.
- 4**: A gear or pulley with a central hub.
- 5**: A curved, flexible component, possibly a hose or a flexible coupling.
- 6**: A small cylindrical pin or bush.
- 7**: A small cylindrical pin or bush.
- 8**: A small cylindrical pin or bush.
- 9**: A long, curved, flexible component, possibly a hose or a flexible coupling.
- 10**: A long, straight, cylindrical component, possibly a shaft or a tube.
- 11**: A small cylindrical pin or bush.
- 12**: A small cylindrical pin or bush.
- 13**: A small cylindrical pin or bush.
- 14**: A small cylindrical pin or bush.
- 15**: A long, straight, cylindrical component, possibly a shaft or a tube.

The diagram shows the relative positions and assembly sequence of these parts. Dashed lines indicate the alignment and fit of the components. The parts are arranged in a way that shows how they fit together to form the complete assembly.

6

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered as follows:

- 1**: A bracket grouping two cylindrical components with internal structures.
- 2**: A small circular cap or plug.
- 3**: A long, thin cylindrical pin or shaft.
- 4**: A larger cylindrical component, possibly a housing or bellows.
- 5**: A bracket grouping two complex, multi-jointed mechanical arms.
- 6**: A small circular component, possibly a seal or washer.
- 7**: A small cylindrical pin or shaft.
- 8**: A small circular component, possibly a seal or washer.
- 9**: A small circular component, possibly a seal or washer.
- 10**: A bracket grouping a large, complex cylindrical component with a gear-like structure.
- 11**: A small circular component, possibly a seal or washer.
- 12**: A small circular component, possibly a seal or washer.
- 17**: A small circular component, possibly a seal or washer.

The diagram shows the relative positions and assembly sequence of these parts, with arrows indicating the direction of assembly.

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or sprayer. The components are numbered 1 through 30. The assembly includes a main body (1), a handle (2), a trigger gun (3), a pump head (4), a motor (5), a gear assembly (6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30), and various fasteners and seals. The diagram shows the relative positions and assembly sequence of these parts.

14

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor housing. The parts are numbered as follows:

- 1**: Main housing or base plate.
- 2**: A small circular component, possibly a seal or gasket.
- 3**: A cylindrical component, likely a shaft or pin.
- 4**: A small circular component, possibly a seal or gasket.
- 5**: A central circular component, possibly a rotor or impeller.
- 6**: A small cylindrical component, likely a pin or bolt.
- 7**: A circular component, possibly a cover or end plate.
- 8**: A small cylindrical component, likely a pin or bolt.
- 9**: A large, irregularly shaped component, possibly a housing or frame.
- 10**: A small cylindrical component, likely a pin or bolt.
- 11**: A large, curved component, possibly a lever or arm.
- 12**: A small cylindrical component, likely a pin or bolt.
- 13**: A small cylindrical component, likely a pin or bolt.
- 14**: A small cylindrical component, likely a pin or bolt.
- 15**: A small cylindrical component, likely a pin or bolt.
- 16**: A small cylindrical component, likely a pin or bolt.
- 17**: A small cylindrical component, likely a pin or bolt.

The diagram shows the relative positions and assembly sequence of these components, with dashed lines indicating the alignment of the parts.

15

This exploded view diagram illustrates the assembly of a mechanical component, likely a motor or actuator. The parts are numbered 1 through 15. The assembly sequence is as follows:

- Part 1** (Large gear) is the main output component.
- Part 9** (Housing) is mounted onto **Part 1**.
- Part 13** (Bushing) is inserted into the housing.
- Part 6** (Washer) is placed over the bushing.
- Part 10** (Intermediate gear) is mounted onto the housing.
- Part 14** (Bracket) is attached to the intermediate gear.
- Part 11** (Screw) is used to secure the bracket.
- Part 12** (Pin) is inserted into the bracket.
- Part 5** (Small gear) is mounted onto the pin.
- Part 7** (Pin) is inserted into the small gear.
- Part 4** (Motor) is the base component.
- Part 2** (Screw) is used to secure the motor.
- Part 3** (Pin) is inserted into the motor.
- Part 15** (Bracket) is attached to the motor.

FIGURA N° 11: SISTEMA DE CLUTCH

FIGURA N° 11: SISTEMA DE CLUTCH

[illegible][illegible]

This technical drawing is an exploded view of a mechanical assembly, likely a pump or motor housing. The central component is a circular housing with a flange. Various parts are shown in their relative positions, indicated by dashed lines. The numbered callouts are as follows:

- 1:** Multiple screws or bolts used for fastening.
- 2:** A small circular component, possibly a seal or gasket.
- 3:** The main outer housing or casing.
- 4:** A bracket or support arm.
- 5:** Screws or bolts on the right side of the housing.
- 6:** Screws or bolts on the top of the housing.
- 7:** A bracket or support arm, similar to part 4.
- 8:** A small component, possibly a pin or clip.
- 9:** A bracket or support arm.
- 10:** Screws or bolts at the bottom of the assembly.

19

This exploded view diagram illustrates the assembly of a Honda 50cc engine. The components are numbered as follows:

- 1:** Screws for the cylinder head cover.
- 2:** The main engine block/cylinder assembly.
- 3:** The cylinder head.
- 4:** The carburetor.
- 5:** Carburetor gasket.
- 6:** Carburetor mounting gasket.
- 7:** Carburetor mounting screw.
- 8:** Carburetor mounting nut.
- 9:** The air filter.
- 10:** The air filter mounting gasket.
- 11:** The piston pin.
- 12:** The piston pin bush.
- 13:** The piston pin clip.
- 14:** The piston pin clip.
- 15:** The piston pin clip.
- 16:** The piston pin clip.
- 17:** The piston.
- 18:** The piston pin clip.

The diagram shows the relative positions of these parts for assembly. A small label with the Honda logo and 'HONDA MOTOR CO. LTD. JAPAN' is visible on the piston.

[illegible]

This exploded view diagram illustrates the assembly of a motorcycle wheel. The components are numbered as follows:

- 1**: Axle
- 2**: Axle nuts (two on each side)
- 3**: Brake disc
- 4**: Tire
- 5**: Wheel rim
- 6**: Hub nut
- 7**: Hub
- 8**: Hub washers (two on each side)
- 9**: Hub lock washers (two on each side)
- 10**: Hub lock bolts (two on each side)

The diagram shows the sequence of assembly: the axle (1) is inserted through the brake disc (3) and tire (4) onto the hub (7). The hub lock bolts (10) are then used to secure the hub lock washers (9) and hub washers (8) on the opposite side of the axle. The hub nut (6) is tightened to secure the entire assembly onto the wheel rim (5). An inset provides a detailed view of the hub assembly, showing the hub (7) and the hub lock bolts (10) securing the hub lock washers (9) and hub washers (8).

This exploded view diagram illustrates the assembly of a motorcycle headlight. The central component is the headlight housing (7), which features a lens (10) and a side marker lens (11). The assembly includes various mounting brackets (3, 4, 5, 6, 8), a turn signal switch (12), and a turn signal indicator (13). The headlight is mounted on a bracket (14) and secured with a nut (15). The turn signal indicator is connected to a wiring harness (16) and a turn signal switch (17). The turn signal switch is connected to a turn signal relay (18) and a turn signal indicator (19). The turn signal indicator is connected to a turn signal relay (20) and a turn signal indicator (21). The turn signal indicator is connected to a turn signal relay (22) and a turn signal indicator (23). The turn signal indicator is connected to a turn signal relay (24) and a turn signal indicator (25). The turn signal indicator is connected to a turn signal relay (26) and a turn signal indicator (27).

This technical drawing is an exploded view of a mechanical assembly, likely a robotic arm or a similar articulated system. The main body of the assembly is shown in the center, with various components and sub-assemblies positioned around it to show their relative positions and how they fit together. The components are identified by numbered callouts:

- 1**: Multiple instances of small pins or fasteners used throughout the assembly.
- 2**: A small rectangular component, possibly a sensor or a connector, located at the bottom right.
- 3**: A bracket or mounting plate used to secure components.
- 4**: A small rectangular component, similar to part 2, located near the bottom right.
- 5**: A small rectangular component, possibly a sensor or a connector, located near the top right.
- 6**: A large, triangular-shaped component, possibly a sensor or a camera module, located near the top right.
- 7**: A small rectangular component, possibly a sensor or a connector, located near the top right.
- 8**: A small rectangular component, possibly a sensor or a connector, located near the top right.
- 9**: A small rectangular component, possibly a sensor or a connector, located near the top right.
- 10**: A small rectangular component, possibly a sensor or a connector, located near the top right.
- 11**: A small rectangular component, possibly a sensor or a connector, located near the top right.

The diagram illustrates the assembly process, showing how these components are integrated into the main structure of the device.

42

This exploded view diagram illustrates the assembly of a motorcycle helmet. The central component is the helmet shell (1), which is shown with its internal structure. Surrounding it are various parts: 2 (chin strap), 3 (earrings), 4 (cheek pads), 5 (top pad), 6 (top pad attachment), 7 (top pad), 8 (side pad), 9 (side pad), 10 (side pad), and 11 (side pad). Dashed lines indicate the assembly path for each part.

[illegible]

This exploded view diagram illustrates the components of a rear suspension system. The parts are numbered as follows:

- 1**: A small cylindrical pin or bush.
- 2**: A circular bush or washer, shown in two locations.
- 3**: A complex metal bracket or lever arm.
- 4**: A long cylindrical roller or guide tube.
- 5**: A coiled spring with a hook at one end.
- 6**: A coiled spring with a hook at one end, slightly different in shape from part 5.
- 7**: A long bolt or screw.
- 8**: A large metal housing or bracket.
- 9**: A small metal component, possibly a pin or clip.
- 10**: A small circular bush or washer.

Dashed lines indicate the assembly path and alignment of the components. The diagram shows how the springs (5 and 6) connect to the lever arm (3) and the main housing (8). The roller (4) is positioned to guide the lever arm's movement. The bolt (7) is used to secure the lever arm to the housing. The various pins and washers (1, 2, 9, 10) are used to assemble the smaller components and secure the springs.

This technical drawing is an exploded view of a mechanical assembly, likely a suspension or steering component. The main body is a large, curved metal bracket (1) with multiple mounting points. Key components include:

- Part 2:** A small pin or bolt at the top left.
- Part 3:** A component with a series of small protrusions, shown in a dashed box.
- Part 4:** A vertical rod or shaft on the right side.
- Part 5:** A component with a series of small protrusions, similar to part 3.
- Part 6:** A small circular component, possibly a washer or spacer.
- Part 7:** A larger circular component, possibly a hub or flange.
- Part 8:** A small pin or bolt.
- Part 9:** A small pin or bolt.
- Part 10:** A small circular component.
- Part 11:** A small circular component.
- Part 12:** A small circular component.
- Part 13:** A small circular component.
- Part 14:** A small circular component.
- Part 15:** A small circular component.
- Part 16:** A small pin or bolt.
- Part 17:** A small pin or bolt.
- Part 18:** A small pin or bolt.
- Part 19:** A small pin or bolt.

The diagram uses dashed lines to indicate the assembly path and alignment of the various components.

This technical drawing is an exploded view of a mechanical assembly, likely a hinge or latch mechanism. It consists of several main components and their associated fasteners, each labeled with a number:

- Part 1:** The main curved housing or bracket on the right side.
- Part 2:** Multiple small pins or bushings used for alignment and spacing throughout the assembly.
- Part 3:** Screws used to secure the main housing (Part 1) and other brackets.
- Part 4:** Washers or spacers used under the screws.
- Part 5:** Screws used to attach the internal bracket (Part 13) to the main housing.
- Part 6:** Small pins or bushings located at the bottom of the main housing.
- Part 7:** A small rectangular plate or insert.
- Part 8:** A small rectangular plate or insert, similar to Part 7.
- Part 9:** A small rectangular plate or insert, similar to Part 7.
- Part 10:** Screws used to secure the bottom of the main housing.
- Part 11:** A small circular component, possibly a roller or a pin.
- Part 12:** Screws used to secure the internal bracket (Part 13) to the main housing.
- Part 13:** An internal bracket or lever arm that connects to the main housing.
- Part 14:** A small circular component, possibly a roller or a pin.
- Part 15:** A small rectangular plate or insert.
- Part 16:** A small rectangular plate or insert.
- Part 17:** A small rectangular plate or insert.

The diagram uses dashed lines to show the relative positions and assembly sequence of the components.

This exploded view diagram illustrates the assembly of a mechanical component. The parts are numbered as follows:

- 1**: Main top plate with mounting holes.
- 2**: Cylindrical component with a threaded end.
- 3**: Another cylindrical component, similar to part 2.
- 4**: Small rectangular component.
- 5**: Small cylindrical component.
- 6**: Bracket or support piece.
- 7**: Small rectangular component.
- 8**: Small cylindrical component.
- 9**: L-shaped bracket or support piece.
- 10**: Small cylindrical component.
- 11**: Small rectangular component.
- 12**: Large, complex plate with multiple circular holes.
- 13**: Small cylindrical component.
- 14**: Small rectangular component.
- 15**: Small cylindrical component.

Dashed lines indicate the assembly path and alignment for each part.

This exploded view diagram illustrates the assembly of a 4-cylinder engine. The central component is the engine block (1). Above it is the cylinder head (2), which is secured by two head bolts (3). To the left, the timing belt assembly is shown, including the timing belt (7), timing belt cover (13), and various tensioners and guides (8, 9, 10, 11, 12). To the right, the water pump (14) and pulley (15) are shown, along with a bracket (16). The diagram uses dashed lines to indicate the assembly path and alignment of the components.
