PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página web: www.autecomobility.com accediendo al link repuestos. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco Mobility.

PROPIEDADES BENEFICIOS &

- **Buena protección contra el desgaste**
Ayuda a prolongar la vida útil del motor.
- **Estabilidad térmica y contra la oxidación**
Ayuda a mantener los motores limpios para proporcionar una operación más suave, posibilitando la extensión de frecuencia de cambios de aceite.
- **Buena protección contra la corrosión**
Protege los componentes críticos del motor contra los ácidos de la combustión y la humedad.

Recomendado para las motocicletas
con viscosidad **20W-50**

This technical diagram illustrates the exploded view of a motorcycle engine assembly. The main assembly includes the cylinder head (1), cylinder (2), piston (3), and crankshaft (4). Various components are numbered for identification: 1 (Cylinder Head), 2 (Cylinder), 3 (Piston), 4 (Crankshaft), 5 (Crankshaft Pin), 6 (Crankshaft Seal), 7 (Crankshaft Pin), 8 (Crankshaft Pin), 9 (Crankshaft Pin), 10 (Crankshaft Pin), 11 (Crankshaft Pin), 12 (Crankshaft Pin), 13 (Crankshaft Pin), 14 (Crankshaft Pin), 15 (Crankshaft Pin), 16 (Crankshaft Pin), 17 (Crankshaft Pin), 18 (Crankshaft Pin), 19 (Crankshaft Pin), 20 (Crankshaft Pin), 21 (Crankshaft Pin), 22 (Crankshaft Pin), 23 (Crankshaft Pin), 24 (Crankshaft Pin), 25 (Crankshaft Pin), 26 (Crankshaft Pin), 27 (Crankshaft Pin), 28 (Crankshaft Pin), 29 (Crankshaft Pin), 30 (Crankshaft Pin), 31 (Crankshaft Pin), 32 (Crankshaft Pin).

Below the main assembly, two sub-assemblies are shown:

- 33**: A sub-assembly consisting of a crankshaft pin (1), a crankshaft pin (2), a crankshaft pin (3), a crankshaft pin (4), a crankshaft pin (5), a crankshaft pin (6), a crankshaft pin (7), a crankshaft pin (8), a crankshaft pin (9), a crankshaft pin (10), a crankshaft pin (11), a crankshaft pin (12), a crankshaft pin (13), a crankshaft pin (14), a crankshaft pin (15), a crankshaft pin (16), a crankshaft pin (17), a crankshaft pin (18), a crankshaft pin (19), a crankshaft pin (20), a crankshaft pin (21), a crankshaft pin (22), a crankshaft pin (23), a crankshaft pin (24), a crankshaft pin (25), a crankshaft pin (26), a crankshaft pin (27), a crankshaft pin (28), a crankshaft pin (29), a crankshaft pin (30), a crankshaft pin (31), a crankshaft pin (32).
- 34**: A sub-assembly consisting of a crankshaft pin (1), a crankshaft pin (2), a crankshaft pin (3), a crankshaft pin (4), a crankshaft pin (5), a crankshaft pin (6), a crankshaft pin (7), a crankshaft pin (8), a crankshaft pin (9), a crankshaft pin (10), a crankshaft pin (11), a crankshaft pin (12), a crankshaft pin (13), a crankshaft pin (14), a crankshaft pin (15), a crankshaft pin (16), a crankshaft pin (17), a crankshaft pin (18), a crankshaft pin (19), a crankshaft pin (20), a crankshaft pin (21), a crankshaft pin (22), a crankshaft pin (23), a crankshaft pin (24), a crankshaft pin (25), a crankshaft pin (26), a crankshaft pin (27), a crankshaft pin (28), a crankshaft pin (29), a crankshaft pin (30), a crankshaft pin (31), a crankshaft pin (32).

This diagram shows an exploded view of a mechanical assembly. The central component is a large, complex housing (1). To its right is a circular flange or gasket (2) with a central hub (3). Above the housing is a lever arm (5) connected to a pivot point (13) and a small pin (8). To the left of the housing are several screws (10) and a circular cap or plug (11). Below the housing is a small circular component (14). To the right of the housing is a small circular component (4) and a small pin (9). The diagram is labeled with numbers 1 through 14, indicating the different parts of the assembly.

4

This diagram illustrates the exploded view of a mechanical assembly, likely a gear train or a timing mechanism. The components are numbered as follows:

- 1**: The main housing or frame, shown as a large, flat, rectangular plate.
- 2**: A large gear or pulley with a central shaft hole, positioned at the bottom right.
- 3**: A series of four interlocking gears or pulleys mounted on a common shaft, positioned in the center.
- 4**: A gear or pulley with a central shaft hole, positioned above the main gear train.
- 5**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 6**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 7**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 8**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 9**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 10**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 11**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 12**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 13**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.
- 14**: A small, cylindrical component, possibly a pin or a small gear, positioned between the main gear train and the housing.

The diagram shows the relative positions of these components, indicating how they fit together to form the complete assembly.

5

This exploded view diagram illustrates the assembly of a mechanical component, likely a gear or pulley system. The parts are numbered as follows:

- 1**: The main housing or frame, shown as a large rectangular plate.
- 2**: A large gear or pulley with a central hub, positioned at the bottom right.
- 3**: A series of five smaller gears or pulleys arranged in a row, mounted on a common shaft.
- 4**: A single gear or pulley positioned above the main gear assembly.
- 5**: Six small spacers or shims used to adjust the tension or alignment of the gear train.
- 6**: Six small pins or fasteners used to secure the spacers or shims.
- 7**: A small circular component, possibly a seal or a washer, located near the main gear.
- 8**: A large gear or pulley with a central hub, positioned above the main gear assembly.
- 9**: Six small spacers or shims used to adjust the tension or alignment of the gear train.
- 10**: A small circular component, possibly a seal or a washer, located near the main gear.
- 11**: A small pin or fastener used to secure the main gear.
- 12**: A small circular component, possibly a seal or a washer, located near the main gear.
- 13**: A small circular component, possibly a seal or a washer, located near the main gear.
- 14**: Six small spacers or shims used to adjust the tension or alignment of the gear train.

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A rectangular base plate.
- 2**: A threaded rod or bolt.
- 3**: A curved arm or lever.
- 4**: A small pin or screw.
- 5**: A vertical plate or support structure.
- 6**: A threaded rod or bolt.
- 7**: A small circular component, possibly a washer or seal.
- 8**: A small pin or screw.
- 9**: A small rectangular component, possibly a bush or spacer.
- 10**: A small circular component, possibly a washer or seal.
- 11**: A small rectangular component, possibly a bush or spacer.
- 12**: A small pin or screw.

The diagram illustrates the assembly sequence, showing how the curved arm (3) is mounted to the base plate (1) using the threaded rod (2) and pin (4). The vertical plate (5) is also shown with its associated components (6, 7, 8, 9, 10, 11, 12).

16

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A long, curved metal arm or bracket.
- 2**: A rectangular plate or housing with a handle-like protrusion.
- 3**: A small screw or bolt.
- 4**: A cable or hose with a connector.
- 5**: A small, dark, rectangular component.
- 6**: A long, thin metal rod or shaft.
- 7**: A small screw or bolt.
- 8**: A curved metal arm or bracket, similar to part 1 but shorter.
- 9**: A small, dark, rectangular component, similar to part 5.
- 10**: A small screw or bolt.
- 11**: A small screw or bolt.
- 12**: A small, dark, rectangular component.
- 13**: A small, dark, rectangular component.
- 14**: A small, dark, rectangular component.
- 15**: A small, dark, rectangular component.
- 16**: A small, dark, rectangular component.
- 17**: A small, dark, rectangular component.

This diagram shows an exploded view of a mechanical assembly, likely a pump or valve. The components are numbered 1 through 31. The assembly includes a main housing (12), a central shaft (14) with various seals and bearings (15, 16, 17, 18, 19, 20, 21, 22, 23), a piston or plunger (24) with a seal (25), and a connecting rod (30). A separate component (9) is shown on the left. A legend box contains numbers 18, 19, 20, and 31, each with a corresponding small circular or cylindrical part.

19

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or motor component. The parts are numbered as follows:

- 1:** A large gear or flywheel with a central hub.
- 2:** A small gear or pinion.
- 3:** Multiple small circular components, possibly washers or spacers.
- 4:** A long, thin cylindrical shaft or tube.
- 5:** A gear or flywheel with a central hub, similar to part 1 but smaller.
- 6:** A small cylindrical component, possibly a pin or a small shaft.
- 7:** A large circular component, possibly a flange or a base plate.
- 8:** Two small screws or bolts.
- 9:** A small cylindrical component, possibly a pin or a small shaft.

The assembly is shown in an exploded view, with the main body (part 7) at the bottom and the various components (parts 1 through 9) arranged around it to show their relative positions and how they fit together.

20

This diagram shows the components of a power cord assembly in an exploded view. The parts are numbered as follows:

- 1:** The main power cord plug, shown with a small screwdriver icon indicating a screw to be removed or added.
- 2:** A rectangular mounting bracket or housing.
- 3:** A power cord with a strain relief boot.
- 4:** A small screw or pin used for mounting.
- 5:** Two screws used to secure the assembly to a surface.
- 6:** A cable strain relief or connector component.

The diagram also includes a perspective view of the assembly mounted on a surface, showing the cord (3) passing through the bracket (2) and being secured by the screws (5).

[illegible]

An exploded view diagram of a mechanical assembly. The central component is a complex housing or pump body (1). Surrounding it are various hoses and fittings: a long curved hose (2) at the top right, a long straight hose (3) to the right, a long curved hose (4) at the bottom right, a long curved hose (5) at the bottom left, and a long straight hose (6) on the left. A small cylindrical component (7) is positioned above the main body. Two small rectangular components (8) are located on the left side. Two small circular components (9) are at the top. Two small rectangular components (10) are on the right. Two small rectangular components (11) are at the bottom. The diagram uses solid black lines for hoses and outlines for the main components.

This technical drawing is an exploded view of a mechanical assembly, likely a bracket or support structure. It features a central main frame with several components shown in their relative positions for assembly. The parts are numbered as follows:

- 1:** The main horizontal frame member.
- 2:** A curved support arm on the left side.
- 3:** A small bracket or connector.
- 4:** A small pin or screw.
- 5:** A small pin or screw.
- 6:** A small pin or screw.
- 7:** A small pin or screw.
- 8:** A small pin or screw.
- 9:** A small pin or screw.
- 10:** A small pin or screw.
- 11:** A small pin or screw.
- 12:** A small pin or screw.
- 13:** A small pin or screw.
- 14:** A small pin or screw.
- 15:** A small pin or screw.
- 16:** A small pin or screw.

The diagram illustrates the assembly process, showing how these individual components fit together to form the complete structure.

[illegible]

This diagram illustrates the exploded view of a medical device assembly, likely a catheter or probe. The components are numbered as follows:

- 1**: A bulbous, teardrop-shaped component, possibly a sensor or actuator, with a small protrusion at its base.
- 2**: A similar bulbous component to 1, but with a different internal structure or connection point.
- 3**: A long, thin, cylindrical tube or shaft.
- 4**: A long, thin, cylindrical tube or shaft, similar to 3, but with a different internal structure or connection point.
- 5**: A small, cylindrical component, possibly a connector or plug.
- 6**: A small, cylindrical component, possibly a connector or plug.
- 7**: A small, cylindrical component, possibly a connector or plug.
- 8**: A small, cylindrical component, possibly a connector or plug.
- 9**: A small, cylindrical component, possibly a connector or plug.
- 10**: A long, thin, cylindrical tube or shaft, similar to 3 and 4.
- 11**: A coiled cable or tube with a connector at one end.
- 12**: A long, thin, cylindrical tube or shaft, similar to 3 and 4.
- 13**: A small, cylindrical component, possibly a connector or plug.

25

This diagram illustrates the assembly of a mechanical component, likely a suspension arm or steering knuckle. The parts are numbered as follows:

- 1**: Main vertical shaft or arm.
- 2**: Small circular washer or spacer.
- 3**: Small circular washer or spacer.
- 4**: Small circular washer or spacer.
- 5**: Small circular washer or spacer.
- 6**: Small circular washer or spacer.
- 7**: Large circular washer or spacer.
- 8**: Large circular washer or spacer.
- 9**: Large circular washer or spacer.
- 10**: Large circular washer or spacer.
- 11**: Small circular washer or spacer.
- 12**: Bolt or screw.
- 13**: Hook or pin.
- 14**: Main bracket or housing.
- 15**: Small bracket or pin.
- 16**: Bolt or screw.
- 17**: Small circular washer or spacer.
- 18**: Small circular washer or spacer.
- 19**: Large circular washer or spacer.

The assembly process involves fitting the various washers and spacers (2-10, 11, 17, 18, 19) onto the main shaft (1) and the bracket (14). The bolts (12, 16) are used to secure the components together. The hook (13) is also shown as part of the assembly.

[illegible]

This exploded view diagram illustrates the components of a vehicle headlight assembly. The parts are numbered as follows:

- 1**: Headlight housing
- 2**: Lens
- 3**: Reflector
- 4**: Lens
- 5**: Mounting bracket
- 6**: Mounting bracket
- 7**: Mounting bracket
- 8**: Mounting bracket
- 9**: Mounting bracket
- 10**: Mounting bracket
- 11**: Mounting bracket
- 12**: Mounting bracket
- 13**: Lens
- 14**: Mounting bracket
- 15**: Mounting bracket
- 16**: Mounting bracket

[illegible]

This diagram illustrates the exploded view of a mechanical assembly, likely a hinge or a similar joint. The components are numbered as follows:

- 1**: A long, angled metal arm or bracket.
- 2**: A shorter, angled metal arm or bracket.
- 3**: Two circular end plates or caps, one for each arm.
- 4**: Two small, cylindrical spacers or washers.
- 5**: Two larger, cylindrical spacers or washers.
- 6**: Two small, cylindrical components, possibly pins or bushings, located near the end plates.

The diagram shows the relative positions of these parts, indicating how they fit together to form the complete assembly.

[illegible]

29

This diagram illustrates the assembly of a motorcycle rear fender. The main components shown are:

- 1**: The rear fender, which has a curved shape and a mounting bracket on its right side.
- 2**: A vertical mounting bracket that will be attached to the underside of the fender.
- 3**: Screws used to secure the mounting bracket to the fender.
- 4**: Washers or spacers used in conjunction with the screws.
- 5**: Nuts used to complete the fastening of the screws.
- 6**: A small metal plate or bushing that fits between the mounting bracket and the fender.
- 7**: A footpeg, shown separately, which is designed to be mounted to the fender.

The diagram shows the fender (1) with the mounting bracket (2) being positioned to be attached using the hardware (3, 4, 5, 6). The footpeg (7) is shown as a separate component that will be mounted to the fender.

30

This diagram illustrates the exploded view of a mechanical assembly, with components numbered 1 through 16. The components are as follows:

- 1**: A long vertical shaft or rod with a flange near the top and a mounting bracket near the bottom.
- 2**: A long, thin, textured rod or pin.
- 3**: A long, thin, smooth rod or pin.
- 4**: A small, textured, rectangular component.
- 5**: A small, circular, flanged component.
- 6**: A small, rectangular, flanged component.
- 7**: A small, rectangular, flanged component.
- 8**: A small, circular, flanged component.
- 9**: A small, rectangular, flanged component.
- 10**: A small, rectangular, flanged component.
- 11**: A small, rectangular, flanged component.
- 12**: A small, rectangular, flanged component.
- 13**: A small, rectangular, flanged component.
- 14**: A small, rectangular, flanged component.
- 15**: A small, circular, flanged component.
- 16**: A small, rectangular, flanged component.

The diagram shows the relative positions and orientations of these components, indicating how they fit together to form the complete assembly.

This diagram illustrates the assembly of a mechanical component, likely a hydraulic cylinder or actuator. The parts are numbered as follows:

- 1**: Main body or housing.
- 2**: Mounting bracket or plate.
- 3**: Small pin or clip.
- 4**: Small pin or clip.
- 5**: O-ring or seal.
- 6**: Small pin or clip.
- 7**: Bolt or screw.
- 8**: Bolt or screw.
- 9**: Bolt or screw.
- 10**: Nut or washer.
- 11**: Bolt or screw.
- 12**: Bolt or screw.
- 13**: Main body or housing (top view).
- 14**: Bolt or screw.
- 15**: Small pin or clip.
- 16**: Mounting bracket or plate.
- 17**: Main body or housing (bottom view).
- 18**: Piston rod or shaft assembly.

The diagram shows the assembly of the main body (1) with the mounting bracket (2) and the piston rod (18). The assembly is shown in two views: a top view and a side view. The top view shows the main body (1) with the mounting bracket (2) and the piston rod (18) attached. The side view shows the main body (1) with the mounting bracket (2) and the piston rod (18) attached, showing the internal components and the mounting bracket (2) attached to the side of the main body (1).

33

This exploded view diagram illustrates the assembly of a washing machine drum. The central component is the drum (1). To its left is the motor and drive pulley assembly (11). Above the drum is the door latch mechanism (6), which includes a latch (7), a strike (8), and a door lock (9). To the right of the drum is the door hinge assembly (2), which includes a hinge (12) and a door lock (10). Below the drum is the door seal (3), which is secured by a door seal clip (4). The diagram also shows a door seal gasket (5) and a door seal clip (13).

34

35

36

This diagram illustrates the components of a rear suspension system, numbered 1 through 7:

- 1**: The main rear suspension arm or axle assembly, featuring a central pivot point and two downward-curving arms with mounting brackets.
- 2**: A coiled spring, likely a torsion bar or coil spring, with hooks at both ends for attachment.
- 3**: A curved metal bracket or bushing component, designed to fit around the spring or the suspension arm.
- 4**: A small, rectangular block or bushing, likely used as a spacer or support between components.
- 5**: A long, cylindrical shaft or pin, possibly a U-bolts or a central axle pin, with a flange at one end.
- 6**: A circular component, possibly a washer or a small disc, used for securing the assembly.
- 7**: A small, angled metal piece or pin, likely a cotter pin or a similar fastener used to lock the suspension in place.

37

This diagram illustrates the exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A small circular gasket or seal.
- 2**: A larger circular gasket or seal.
- 3**: A small O-ring or seal.
- 4**: A long, cylindrical shaft or tube.
- 5**: A curved bracket or support arm.
- 6**: A U-shaped bracket or flange.
- 7**: Two small screws or bolts used to secure the gaskets to the U-shaped bracket.
- 8**: Two small screws or bolts used to secure the curved bracket to the shaft.

The assembly is shown in a perspective view, with dashed lines indicating the relative positions and alignment of the components. The shaft (4) is the central component, with the U-shaped bracket (6) attached to one end and the curved bracket (5) attached to the other. The gaskets (1, 2, 3) are positioned between the shaft and the U-shaped bracket, while the curved bracket (5) is positioned between the shaft and the curved support arm.

38

This diagram illustrates the exploded view of a mechanical assembly, likely a bicycle chain drive. The components are numbered as follows:

- 1**: Main frame or housing.
- 2**: Small rectangular component, possibly a pedal or bracket.
- 3**: Long, curved component, possibly a chain guide or fender.
- 4**: Long, thin component, possibly a chain link or guide.
- 5**: Small, U-shaped component, possibly a bracket or clip.
- 6**: Long, thin component, possibly a chain link or guide.
- 7**: Small, circular component, possibly a pin or washer.
- 8**: Small, circular component, possibly a pin or washer.
- 9**: Small, circular component, possibly a pin or washer.
- 10**: Small, circular component, possibly a pin or washer.
- 11**: Small, circular component, possibly a pin or washer.
- 12**: Small, circular component, possibly a pin or washer.
- 13**: Small, circular component, possibly a pin or washer.
- 14**: Small, rectangular component, possibly a bracket or clip.
- 15**: Small, circular component, possibly a pin or washer.
- 16**: Small, circular component, possibly a pin or washer.
- 17**: Small, circular component, possibly a pin or washer.

39

This technical drawing is an exploded view of a bicycle wheel assembly, showing the relationship between various components. The parts are numbered as follows:

- 1**: The main frame or hub assembly, shown in a dashed box.
- 2**: A small circular component, possibly a seal or washer, located near the hub.
- 3**: A small pin or screw.
- 4**: A small cylindrical component, possibly a bush or spacer.
- 5**: A large, curved component, likely a fender or a protective cover.
- 6**: The central hub of the wheel.
- 7**: A small component, possibly a bolt or screw.
- 8**: A small component, possibly a washer or spacer.
- 9**: A small circular component, possibly a seal or washer.
- 10**: A small pin or screw.
- 11**: A small cylindrical component, possibly a bush or spacer.
- 12**: A small pin or screw.
- 13**: A small cylindrical component, possibly a bush or spacer.
- 14**: A large gear or sprocket.
- 15**: A small pin or screw.
- 16**: A small cylindrical component, possibly a bush or spacer.
- 17**: A small pin or screw.
- 18**: A small cylindrical component, possibly a bush or spacer.
- 19**: A small pin or screw.
- 20**: A small cylindrical component, possibly a bush or spacer.
- 21**: A small pin or screw.
- 22**: A small cylindrical component, possibly a bush or spacer.
- 23**: A small pin or screw.
- 24**: A small cylindrical component, possibly a bush or spacer.
- 25**: A small pin or screw.
- 26**: A small cylindrical component, possibly a bush or spacer.
- 27**: A small pin or screw.

41

This diagram illustrates the exploded view of a bicycle wheel assembly, showing the relationship between various components. The parts are numbered as follows:

- 1**: Main frame or hub assembly.
- 2**: Small pin or bolt.
- 3**: Small pin or bolt.
- 4**: Small pin or bolt.
- 5**: Tire.
- 6**: Rim.
- 7**: Valve stem.
- 8**: Valve cap.
- 9**: Small pin or bolt.
- 10**: Small pin or bolt.
- 11**: Small pin or bolt.
- 12**: Small pin or bolt.
- 13**: Small pin or bolt.
- 14**: Small pin or bolt.
- 15**: Small pin or bolt.

This exploded view diagram illustrates the assembly of a mechanical component, likely a valve or actuator. The parts are numbered 1 through 18. The main body (1) features a central shaft (6) with a lever arm (2) and a spring (3). A pin (7) is used to secure the lever arm. A small component (8) is attached to the shaft. A spring (9) is also shown. The assembly is completed with a cap (10) and a pin (15). The cap (10) has a spring (14) and a pin (16). A small component (12) is also shown. The assembly is completed with a cap (11) and a pin (15). The cap (11) has a spring (14) and a pin (16). A small component (12) is also shown. The assembly is completed with a cap (10) and a pin (15). The cap (10) has a spring (14) and a pin (16). A small component (12) is also shown.

[illegible]

This diagram illustrates the components of a shock absorber assembly. The central part, labeled 1, is the shock absorber body. Surrounding it are various mounting and adjustment parts, numbered 2 through 8. At the top, there is a large washer (8), a top cap (5), a top sleeve (4), and two top bushings (6 and 7). At the bottom, there is another large washer (8), a bottom cap (2), a bottom sleeve (3), and two bottom bushings (6 and 7). The diagram shows how these parts fit together to complete the shock absorber assembly.

45

This diagram illustrates the exploded view of a motorcycle helmet assembly. The components are identified by the following numbers:

- 1**: Main helmet shell.
- 2**: Small circular fasteners (top and rear).
- 3**: Small circular fasteners (top and rear).
- 4**: Small circular fasteners (top and rear).
- 5**: Chin strap assembly.
- 6**: Small circular fasteners (chin strap).
- 7**: Chin strap assembly (alternative view).
- 8**: Small circular fasteners (chin strap).
- 9**: Small circular fasteners (chin strap).
- 10**: Small circular fasteners (chin strap).
- 11**: Small circular fasteners (top and rear).

46

This is a detailed wiring diagram of a vehicle's electrical system. The central component is a battery (4). The system is organized as follows:

- Top Section:** A main power line from the battery (4) branches out to a headlight (16), a horn (15), a fuel pump (9), and an alternator (10). The alternator (10) is connected to a starter motor (11).
- Left Section:** A cluster of components including a headlight (16), a horn (15), a fuel pump (9), and a sensor (17) are connected to a main power line (1).
- Bottom Section:** A cluster of components including a sensor (12), a switch (9), a relay (3), a fuse (2), a relay (8), a sensor (9), a relay (14), a sensor (7), and a sensor (18) are connected to a main power line (1).
- Right Section:** A cluster of components including a sensor (13), a sensor (6), a sensor (5), a sensor (7), and a sensor (18) are connected to a main power line (1).

The diagram uses numbered callouts to identify each part and its connection points. The components are connected to a central power line (1) which branches out to each component.

47

This diagram shows four sub-assemblies of a cable assembly, labeled 11, 10, 12, and 13. Each sub-assembly consists of a cable with a specific connector and a set of mounting hardware.

- Sub-assembly 11:** Features a cable with a connector labeled 6. The mounting hardware includes a bracket labeled 8 and three screws labeled 3, 4, and 5.
- Sub-assembly 10:** Features a cable with a connector labeled 7. The mounting hardware includes a bracket labeled 9 and three screws labeled 3, 4, and 5.
- Sub-assembly 12:** Features a cable with a connector labeled 1. The mounting hardware includes three screws labeled 3, 4, and 5.
- Sub-assembly 13:** Features a cable with a connector labeled 2. The mounting hardware includes three screws labeled 3, 4, and 5.

[illegible]

This exploded view diagram illustrates the assembly of a mechanical component. The parts are numbered as follows:

- 1**: A main housing or bracket with a cable attached.
- 2**: A vertical support or guide.
- 3**: A small pin or screw.
- 4**: A washer or spacer.
- 5**: A nut or lock washer.
- 6**: A large nut or washer.
- 7**: A small pin or screw.
- 8**: A small pin or screw.
- 9**: A small pin or screw.
- 10**: A small pin or screw.
- 11**: A large nut or washer.
- 12**: A bracket or plate.
- 13**: A small rectangular plate or label.
- 14**: A small pin or screw.
- 15**: A small pin or screw.
- 16**: A cable or hose.

The diagram shows the relative positions and assembly sequence of these components, with dashed lines indicating the alignment of the parts.
